- ▶ Providing data and statistics to policy makers and third parties

## About IVR

IVR is the unique international platform on which national organisations of inland navigation, transport insurance and surveyors as well as individual companies and individuals from these sectors in many European countries are represented.

Also related areas of business such as lawyers, manufacturers, yards are represented.

Inland navigation plays an important role within the European transport and mobility system. IVR is coping with all topics within the common sphere of interests of its members. It is characterised by its neutrality and independence.

IVR's members form a unique network of key players in the international inland navigation sector as well as all related areas to exchange information and experiences in the broadest sense.

## For whom is an IVR membership interesting?

- ▶ Insurers
- ▶ Insurance brokers
- ▶ Lawyers
- ▶ Surveyors/Consultants
- ▶ St. gear manufacturers

### Origin IVR members:

**Vision** IVR is the independent inland navigation data / information source for statistics and considered as the platform for discussing and analysing risks and consequences of legal and technical developments in the inland navigation industry.

\* IVR members can participate in various events at a reduced rate.

**Join IVR? You can sign up for membership on the next page** 

See our [Member list](#) for an overview of our current member base.

**Mission** IVR's main objective is the observation and representation of the common interests of the involved industries on the network of the major European inland waterways. Inland navigation plays an important role within the European transport and mobility system. IVR is coping with all topics within the common sphere of interests of its members. It is characterised by its neutrality and independence.
